Hank Parker knows fishing, so there was no shortage of excitement recently when he visited our own Lake Cameron—the largest lake in Montgomery County—to film two of his shows. And that excitement only grew when he landed 50 bass over 5 pounds before calling it a day. Maybe that’s what led him to say we had “one of the most fabulous lakes” he’d ever fished in his life.

Of course, for those who live here, fishing our 200 acre, world-class, professionally managed lake is just another day in the neighborhood. There’s no need to lug stacks of gear on vacations or weekend getaways. All it takes to start landing trophy-sized bass is a rod, tackle box and short walk down the street.

Spend your fishing time fishing, and free up the rest of your life for family, friends and the other things you care about. If the only thing you love more than fishing is convenient fishing, you owe it to yourself to check out homes at The Waters — from the \$200s to over a million.
